Concept of the Event

The AseBio Investor Day is a forum that aims to connect the Spanish biotechnology industry with national and international investors.

Since its first edition (Barcelona, 2017), the event has attracted national and international investors, contributing to give visibility to the national biotechnology industry.

AseBio Investor Day also fosters networking between investors from Spain and the rest of the world.

The event is also aligned with AseBio's priority objectives: facilitating companies' access to greater financing, co-investment between biotechnology companies and promoting the consolidation and growth of the sector.
